As Privacy Technology for Financial Intelligence project is currently in research stage and hasn't make decision for project directions, we may create website for introduction purpose, and it will extend to products and solutions based on decision made by leadership team in T1 2024.

Before stating the website design, we need to define the project name and logo for project and website. To be aligned with company DataBytes logo colors, I choose main colors as black, blue and white. Mocks of logo from smashing logo and Canva are as below.
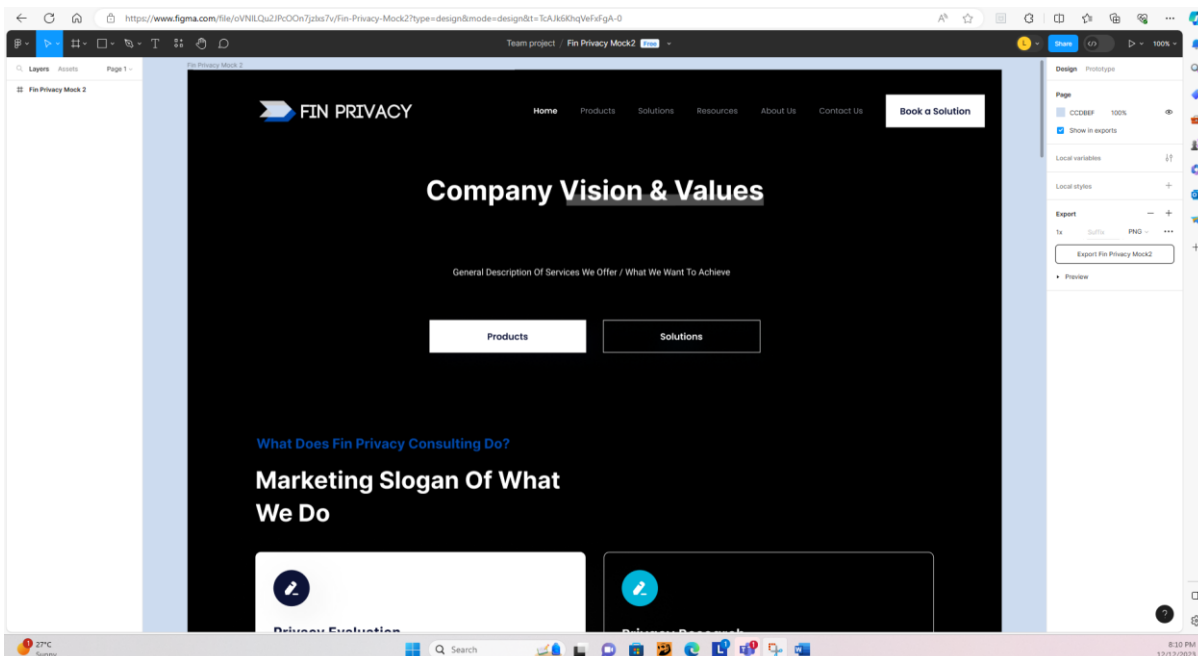

Bases on Logo mocks above, I draft two website mocks as below.

Website Mock 1 URL: https://www.figma.com/file/puDEhEyS05CqmR48200bxQ/Privacy-Tech-Mock-1?type=design&node-id=0-1&mode=design&t=eniTbpPIdlhBhn0t-0

Website Mock 2 URL : https://www.figma.com/file/oVNlLQu2JPcOOn7jzlxs7v/Fin-Privacy-Mock2?type=design&mode=design&t=TcAJk6KhqVeFxFgA-1

We need to finalise project direction, section information, project Logo, additional mocks options and etc. in first 2 weeks through T1 2024, then decide optimal mocks and start website design.
